Forecast For Wales
Issued by Met Office Exeter
at 1600 on Monday 13 Sep 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Rain overnight, before turning drier into the week.

This Evening and Tonight:
Into the evening further rain begins to move into the south and overnight this progresses further north, affecting most of the country by the morning and with the heaviest of any rainfall in the east. Minimum temperature 12 deg C (54 deg F).

Tuesday:
A wet start before rain becomes more confined to the east of the country, heavy here. Where the rain clears conditions drier, brighter and warmer but feeling muggy. Maximum temperature 20 deg C (68 deg F).

Outlook for Wednesday to Friday:
Misty starts in places on Wednesday and Thursday, then becoming fine and largely dry with sunny spells, feeling warm in these. Wet and windy Friday.
